donoteatme banaengelolma

40 sene önce
resimle başlayan bir
serüven!

"Donoteatme- Banaengelolma" yaşamımızda hayallerimizin, ufuklarımızın açılmasına engel oluşturan olaylara karşı gelmektir. Temayı uçan kuşlarla bağdaştırdım. Kuşları yemeyelim... Onlar masum, tatlı ve özgür yaratıklar. Serbestçe uçsunlar, aile kursunlar, şakırdasınlar... Bizi kucaklayıp ruhumuzu yüceltsinler...

Nadia Arditti izleyiciyi kendi hayalinin gücüyle uçmaya davet ediyor bu sergide.

"Sanat, yaranın ışığa dönüşmüş şeklidir."

20 yıllık bronz çalışmasının sonucunda; havai formların boşluk ve hacmi değerlendirmesiyle en ağır metal dahi en hafif konumuna gelir. Heykellerim: su, deniz, esintiler, rüzgarda yapraklar, ruh, gizem ve uçan kuşları simgeler. Özgürlüğün mekanı kullanmasıyla ne olduğunu hisseder ve hayal kurarsınız, rüya görürsünüz.

I work subjects as global warming, optimism, passion, love creating sculptures with an Oriental flavour as variations in moonlight. This resulted after 20 years of working with bronze; heavy metal treated as lightly as possible, aerian forms using void and volume. Actually my sculptures represent water, sea, winds, leaves in the wind, spirit, mystery, flying birds, liberty using space in which you can feel what is happening and imagine, dream of it. The spectator is sculpting with his "thoughts", while the sculptor is "desculpting".

"In the path of commitment to total fidelity until perilous end. Art is a wound transforming unto light."
